

La Flora de Villa Mi Terruño y Culebra

**Ensayo Fotográfico por
Manuel H. Dubón**

La Flora distingue a Culebra por su vegetación indomable

Arbustos de Monte Hillside Bushes

Use of the Digital and Photographic Plant Database Material and Plant List Indexes

The **FMT Culebra Flora Digital Database** is published by **Fundación Mi Terruño Inc. (FMT)** and its author for the viewer's enjoyment and to assist other scientific and research endeavors. It is an effort and pursuit to share systematic botanical knowledge of the **Flora of Culebra, Puerto Rico** in keeping with the foundation's scientific and public educational and conservation goals. The database will be part of the knowledge base that will be used in youth and adult nature appreciation and conservation courses that will be offered once the **Villa Mi Terruño** long term development project commences construction and the **Youth Camp Cabins** and **Nature Appreciation Lodge** become operational. The **Foundation** has been licensed and intends to publish and sale, in one or more series, the content of the **VMT Flora Photo Database** in the future. All **Foundation** revenues and receipts are and will be used for its scientific, educational conservation purposes.

All the photographic and other material in the **FMT Culebra Flora Digital Database** is the property of its author and/or the Foundation's and copyrighted and protected by the laws of United States and Puerto Rico. The author has licensed the use of the digital and printed photographic material in this database to **FMT** and has entrusted us with the administrative handling of special use and publishing requests. The photographic material may be used and displayed for personal and non-commercial purposes including educational and scientific use provided that any user places the proper copyright notices on the photo or display material [i.e. © Manuel H. Dubón]. The Photographic digital or electronic material may not be published electronically or in printed material or other public or commercial websites use without first seeking and obtaining permission from the owner and the Foundation
